

The Weber Family – Larry, Jayne & Ian; daughter Cassie Thornton and husband Michael -- **Boulder, Colorado**

Ian has **Fragile X syndrome**. He loves CU basketball and dancing with the brides at weddings!

Fragile X syndrome (FXS) is a genetic (single gene) condition that causes intellectual disability, behavioral and learning challenges and various physical characteristics. Though FXS occurs in both genders, males are more frequently affected than females, and generally with greater severity.

Fragile X Syndrome is the most common known single gene cause of Autism Spectrum Disorders.

The National Fragile X Foundation - fragilex.org – jayne@fragilex.org - **Research makes a difference!!**
